## Safe Online Shopping Tips

- **Shop from home.** To protect sensitive information like credit card numbers, you'll want to shop from your home internet connection, if possible, instead of a public Wi-Fi network. It may put you at a slightly higher risk for hacking, which could put your information at risk.
- **Look for HTTPS.** Many websites will display a lock symbol in the address bar. This means the website is using an HTTPS connection, which makes it safe to enter information. You won't see this symbol on every page of an online store, and that is OK-not all pages really need this extra layer of security. However, you should avoid entering your credit card number or other financial information if you don't see this symbol.
- **Research the company or seller.** Anyone can set up a shop online, so it's important to research a company before buying from the site. Make sure the business has a physical address and phone number you can contact if there's a problem. You can also check for reviews on sites like Yelp or Google.
- **Use secure payment methods.** Credit cards are generally the safest way to pay for items online. But if you still don't like the idea of giving your credit card information to different retailers, you could try an online payment service like PayPal.
- **Keep a record.** Always save records of your online purchase, it should include the receipt, order number, product description, and price. You will also want to save any emails you receive from a seller.
- **Trust your instincts.** In the end, use your common sense and trust your instincts. If a deal seems too good to be true, it probably is.

## Santa for Senior Giving Tree

Stop in our office to pick up a gift tag from our tree. Each gift tag has suggestions for a senior male or female. Wrap your gift, attach the gift tag, and return to our office before Monday, December 18th. We will deliver the gifts to Accura Healthcare of Cascade.

Let's help brighten the holidays  
for a local senior this year!
