

Cascade Communications is proud to announce the launch of SmartTown, a cutting-edge initiative designed to keep homes and communities seamlessly connected with high-speed, secure internet access. With this innovative technology, Cascade Communications is making it easier than ever for its subscribers to enjoy Wi-Fi while on the go throughout its communities.

As part of this initiative, and in partnership with the Cascade Economic Development Corporation, Cascade Communications is also providing free Community Wi-Fi at several local parks and frequently visited areas throughout town. These designated areas will allow residents and visitors to stay connected while spending time outdoors, supporting local businesses, or enjoying the city's recreational areas.

For more information on SmartTown and Cascade Communications' free Community Wi-Fi, visit <https://cascadecomm.com/smarttown/>.
